AR

DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Diderico van Eyl on February 16, 2005.

The application has been amended as follows:

Delete claim 1 and replace with Claim 9. A method comprising: a) selecting an aqueous system containing a polyaspartic acid and/or salts thereof, and b) performing a direct concentration determination of the polyaspartic acids and/or salts thereof in the aqueous system by fluorometry.

In claims 2-8, line 1, replace "claim 1" with --claim 9--

Allowable Subject Matter

Claims 2-9 are allowed.

The following is an examiner's statement of reasons for allowance: Claim 9 is allowable because the prior art does not teach or fairly suggest a direct concentration determination of polyaspartic acid and/or salts thereof by fluorometry. The closest prior art performs an indirect concentration determination of polyaspartic acid and/or salts thereof by fluorometry.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
